FIGURE 299

ACID-PROOF FLANGED AND THREADED STRAIGHT-WAY COCK

With apron to prevent possible acid from reaching hands or face, should key become loose. Tested to 60 pounds.

We make every description of Acid-Proof Chemical Stoneware, Standard or Special

Our clay and method of manufacture is NOT the same as used by others in our district.

THIS TRADE-MARK stamped into the body of chemical stoneware means: that it is guaranteed acid-proof through the entire body, tough and durable and not brittle or fragile like common ware,--that it is free from checks, blisters or other defects and does not leak or sweat and must be perfectly satisfactory to you.

Our Ware Is Not Dependent Upon a Glaze, Enamel or Veneer

IT IS THE BODY ITSELF

Withstands the action of Acids, Alkalis and Chemicals, strong or weak, hot or cold.
